> Level 2: Survival Force Reactionary Defense

Controlled F.O.R.C.E. Level 2 teaches personnel how to survive a surprise attack and then transition to control tactics. The system builds upon the basic principles of body movement and positioning learned in Level 1. Where Level 1 teaches personnel how to control and arrest an aggressive subject, Level 2 prepares the operator for the sudden and violent situations that are not expected. These techniques are proven to save lives.

6> HAND-TO-HAND DISRUPTION TECHNIQUES

This category teaches personnel how to protect themselves from a sudden open-hand attack and use “strikes with a purpose” to disrupt the assault. Lead Hand Drills develop eye/hand coordination and teach skills for moving from the inside to the outside position of advantage.

7> BATON DISRUPTION TECHNIQUES

This category teaches personnel how to use the baton as a TOOL to disrupt a sudden attack and to protect the head and face from damage. Personnel are taught how to use the baton to increase their blocking surface and to use “strikes with a purpose” to disrupt the attack.

8> KNIFE AWARENESS AND DEFENSE

This category teaches personnel how to avoid getting cut in a sudden edged-weapon attack and to transition to a control tactic or escalate force as necessary. These techniques focus on SURVIVING A KNIFE ATTACK, and do not teach personnel how to engage an attacker in a knife fight.

9> GROUND DEFENSE AND ESCAPES

This category teaches personnel how to protect from attacks on the ground and to escape to a position of advantage. Incorporating M.A.C.H. holds and Lead Hand Drills, these techniques focus on ESCAPING FROM AN ATTACK ON THE GROUND, and do not teach ground fighting tactics.

10> WEAPON RETENTION & DISARMS

This category teaches personnel how to retain a drawn sidearm with confidence and control from a surprise weapon grab. These tactics incorporate techniques derived from the Lead Hand Drills and re-emphasize body positioning and movement when retaining or disarming a weapon during an attack.

Operational Design Capability

All levels of the Controlled F.O.R.C.E. Close Quarters Subject Control Training System can be absorbed in whole or in part into existing doctrine, or can be configured on an as-needed basis.

We specialize in developing unit specific modifications and additions to any or all aspects of our training.
